

ReadyConnect[®]

Reservationless audio conferencing at your fingertips!

ReadyConnect[®] is an automated, on-demand audio conferencing service with simple touch-tone commands that give you complete control of your conference while saving you time and money. ReadyConnect[®] enables you to conveniently conduct meetings with up to 50 participants with no operator and no reservation required.

How can ReadyConnect[®] help me?

Easy to use

- Simple touch tone commands
- Flexibility to make meetings happen without an operator or reservation

Increase Productivity

- Meet with clients and colleagues more frequently
- Conduct ad hoc problem solving meetings
- Easily maintain business communication when working from home
- Quickly salvage a meeting that was missed due to a delayed or cancelled flight

Save time and money

- No journey time
- No set up costs

Use ReadyConnect[®] for your time-sensitive meetings involving up to 50 participants:

- Internal Company Communications
- Financial and Legal Reviews
- Sales Presentations
- Project Management
- Training Sessions
- Crisis Management

Increase Speed — Control Costs — Save Time — Maximize Productivity

ReadyConnect[®] offers features designed for ease of use and functionality such as:

Recording

The Chairperson may record the call for future playback. Enables participants who cannot attend the conference live to hear the conference afterwards.

Roll Call

The Chairperson can accurately identify the audience members through an audible list of participants.

Lock/Unlock

This security feature allows the Chairperson to "shut the door" and lock the conference.

Listen-Only Mode

The Listen-Only Mode enables the Chairperson to place participants in a presentation mode (all participants are muted).

Self-Mute

The Self-Mute feature allows one to mute one's own line during conference.

Entry/Exit Tones

Gives the Chairperson notice of conference traffic by audibly signaling the arrival of a new participant or the departure of a current participant.

Conference Keep Alive

Enables the conference to continue if the Chairperson has to leave.

Conference End

Ensures that the conference ends by immediately disconnecting all phone lines.
